## Presenting Sponsor

## Home Weatherization

Habitat for Humanity MCTX has added weatherization to our Home Repair Program. Weatherization of your home includes a range of safety measures to reduce home energy costs and increase home energy efficiency. It addresses issues with plumbing, electrical systems, heating ventilation and air conditioning. We provide services to replace insulation, weather stripping, upgrading windows, and installing storm doors.

## Volunteer Spotlight

For over a decade the Koettings have dedicated themselves to the mission and success of Habitat for Humanity in Montgomery County. Lisa was the Auction Chair for the inaugural Building Hope Gala in 2011, Co-Chair of the Building Hope Gala

Our amazing Red Hat Crew is a group of loyal weekly construction volunteers who have tirelessly given of their time and talents over many years. These dedicated men and women work several days each week to prepare the construction site and assist in leading house build volunteers on

for three years, and actively served on the Gala Committee for another four years.

Lisa and Fred also pursued another tangible way to partner with Habitat. When the affiliate needed a larger home improvement donation center and retail store, Fred Koetting, President of Schulte Building Systems, readily advised the Habitat team on the architectural design and provided the steel building materials at cost. The Koetting's valued contribution to the construction of the 20,000 square foot ReStore at Woodforest Center on State Hwy 242 provided the foundation for a sustainable source of retail income supporting the affiliate's ongoing home construction and repair program.

When we asked Lisa why they are involved with Habitat, this was her response.

"Well, other than the obvious about all the good works Habitat does, I think what really brings Fred and I in is Habitat's motto...its a hand up, not a handout. I mean that right there says so much about not only the HfH organization but more importantly about the people it helps. All the people Habitat helps to become homeowners are upstanding hardworking individuals and families who, for many reasons, find themselves unable to afford a family home. The families work with habitat to help build their own homes, take classes on financial management and encourage their children to do well in school. All of this contributes to making owning safe and affordable housing a reality. It becomes life changing for so many families and the impact, we believe, leaves lasting affects for generations to come. It's a blessing to help good people help themselves."

the Saturday workdays. The Red Hat Crew has been instrumental in progressing and completing construction of almost twenty homes in recent years with the Covid-related restrictions on other volunteers. The diligent efforts of the Red Hat Crew make the dream of homeownership a reality for our partner families.

Do you want to volunteer with Habitat Montgomery County? We are always looking for volunteers to help us in the family selection process, at ReStore, on construction and more. Let us know! Maybe you will be featured in our Volunteer Spotlight!

**Thank you!**

We would like to give thanks to **The Woodlands Methodist Church** for letting us use their rooms for gala and board meetings and family application assistance. It has given us the space to reach our goals and further Habitat MCTX's mission!
