Community Assistance Center (CAC) is thrilled to welcome TEDTalk Speaker and Founder of Aidan Cares, Aidan Anderson. At seven years old, Aidan found that one simple choice to give put him on a path of purpose. Aidan seeks to connect people to the causes that matter and to discover ways to give back for a better

tomorrow. His message is imparting the necessity and joy of giving to all ages. Since 2008, his message has been received by millions in over 30 countries, which has led children around the world to start their own giving initiatives.

Aidan says, "Love is an act. So, we must act and be our brother's keeper. Whether it's people, the earth, or animals, we need to find the give that makes our heart sing."
