

Have You Heard?

FROM THE CLINIC ...

The new year brought the opening of our brand new, state-of-the-art audiology clinic! Designed for babies, adolescents, and adults of all ages, the clinic brings prompt, quality audiology services for our entire community. In just a few short months, we have already seen 95 patients!

Audiology is important for everyone. Even slight hearing loss can lead to cognitive decline. Book an appointment to get your hearing checked by calling 936-251-3021.

MEET THE PATIENTS

At 2 months old, baby Amelia was fitted for hearing aids. The photo above captures the moment her hearing aids were placed and she heard her sweet mama's voice for the first time - all at the All Ears! clinic.

With her new Cochlear Implants, Emily is able to hear the students in her classroom - even when they're behind her.

Forrest is looking forward to being a part of family gatherings again, with his new (tiny!) hearing aids.

FROM THE PRESCHOOL ...

Our inclusive preschool is setting records! Registration for the 2023-2024 school year has already exceeded capacity in our current location. From 18 months to pre-K4, All Ears! children meet critical benchmarks on their way to mainstream kindergarten alongside their typical hearing friends. Thank you for helping to make this program possible!

FORESTGATE SCHOOL

where limitless futures begin

INTRODUCING THE FORESTGATE SCHOOL

With the need continuing to rise, our preschool program is growing and we are opening a new facility!

This expanded program - known as the Forestgate School - will be truly inclusive. Hearing children and those with hearing loss will play and learn alongside one another throughout the entire day. All children will benefit from small class sizes, with teachers who specialize in teaching young children how to hear and be heard.

Check back soon for enrollment details and information on how you can support this one-of-a-kind school.

YOUR IMPACT ...

PAYING IT FORWARD

Learning spoken language takes time—time that cannot be wasted when helping a baby learn to hear.

When Gus received his Cochlear Implants, he donated his hearing aids (pictured here) to help another baby start listening within days of her diagnosis.

All Ears! Hearing Aid Loaner Bank allows babies to start their journey to hearing without delay.

HEARING FOR ALL

This month, Bastian received his first hearing aids at 4 months old. While his mom is excited, his brother was over the moon - knowing his little brother will grow up hearing his voice.

By learning Listening and Spoken Language, Bastian will be an integral part of his loving family. He will be able to learn and play with his older brother - a simple thing many of us take for granted.

COMING UP ...

HEALTH FAIR

Stop by our table at The Woodlands Area Chamber Health, Wellness, and Fitness Expo 2023 **TODAY - April 1st, No Foolin'!**
